

MANAGEMENT GROUP

- You organize subscriptions into containers called "management groups"
- You can apply IAM and Azure Policies on management group
- All subscriptions within a management group automatically inherit the conditions applied to the management group.

AVAILABILITY ZONE

- Availability Zones is a physical datacentre
- Some Azure Region have Availability Zones
- The Number of Availability Zone in that Region will be 3
- Each Availability Zone has separate power, network and cooling
- If one Availability Zone fails it does not impact other Zone
- All Availability Zone are connected to each other with high speed fiber and have less than 2ms latency
- You get an SLA of **99.99%** (DT:- 4.38 min per month)

Azure Region
